

Dear Valued Guest,

Your safety is our priority. We have put together the following Covid-19 guidelines to be observed during your stay at the Coconut Climb Villas. For any further queries that you may have, please feel free to let us know. We will be happy to assist you.

- Before entering the Villa, we urge you to sanitise your hands. A station for hand sanitising is available at the main entrance.
- Guests are encouraged to observe social distancing at all times.
- Payments are to be settled by internet banking. In cases where this is not possible, a folder will be made available to settle payments. We encourage you to provide the exact amount.
- You are advised to observe hygiene etiquettes such as frequent hand washing and avoiding touching the face.
- Good respiratory etiquette should also be observed when coughing and sneezing. Tissues should be immediately disposed.
- We have been advised by the Health Authorities to maintain a temperature record of all guests. Please note that we will have to take your temperature every morning.

- We advise you to avoid close contact with anyone who has a fever or cough.
- For your own safety, when going out, please keep practicing social distancing at all times. We encourage you to avoid places with large crowds.
- If you feel unwell or experiencing any Covid-19 symptoms, please contact the manager immediately. In such cases, you will be asked to isolate yourself in your room, whilst the management will make contact with the health authorities. Note that no other guest will be permitted to enter the room.
